Top of the range

Rangehoods take on new significance in open-plan kitchen/living zones. Plan well to hide it – use a rear vent, or even a pop-up extractor. Alternatively, make a feature of it with one of the new decorative options that hang like pendants and contain discreet filters to capture grease and smells.

Deep drawers and pull-out pantries allow you to quickly and easily find what you're looking for. Be sure to include provisions for recycling too.
